EFFECTS OF LOSSES ON TEA CO₂ LASER OUTPUT

H.A.Dadran, C.A.Esshary and S.I.Easa

Department of physics , College of Education , Basrah University,
Basrah, Iraq.

Abstract

The effects of losses in transversely excited atmospheric (TEA) CO₂ lasers are studied. An equation governing the buildup of laser pulses is used to show the effects on peak power, pulse arrival time, and pulse width at half maximum (FWHM).
